The above mentioned can all be yours by starting your own mini farm. The money you will save by growing and cultivating your own food, as well as selling it at farmer's markets will add income to your household, in some cases more than $15,000 a year. Not to mention the health benefits of working outside on your mini farm is one of the best exercises, working all muscle groups and stimulating the mind. The best part about all of this is the organic, all natural food you will be preparing and serving at your dinner table.

This guide offers a stepping stone into creating your own sustainable mini farm, showing you different options, and various methods to incorporate into your new lifestyle. It is easy to read, with links to further information and can be finished in one day's commute into the city. Even if you have only a quarter acre of land to with which to work, you too can have all the benefits of a mini farm.

Growing fruits and vegetables, raising chickens or quail and preserving the bounty you harvest are all covered in this book.
