The following work is chiefly intended for officers navigating vessels in the Indian Ocean in the hope of being able to convince the doubtful and force on the attention of the heedless or ignorant the real nature of those dangers from which both shrink with awe and undefined dread and to show that the means of avoiding them are neither uncertain nor difficult. It may also assist the intelligent and inquiring officer, whose arduous duties at sea, and brief and hurried visits to land, leave him little time to accumulate facts, or pursue a subject so intimately connected with his profession.
