General He Yingqin: The Rise and Fall of Nationalist China Peter Worthing
A revisionist study of the career of General He Yingqin, one of the most prominent military officers in China's Nationalist period (1928-1949) and one of the most misunderstood figures in twentieth-century China. Western scholars have dismissed He Yingqin as corrupt and incompetent, yet the Chinese archives reveal that he demonstrated considerable success as a combat commander and military administrator during civil conflicts and the Sino-Japanese War. His work in the Chinese Nationalist military served as the foundation of a close personal and professional relationship with Chiang Kai-shek, with whom he worked closely for more than two decades. Against the backdrop of the Nationalist revolution of the 1920s through the 1940s, Peter Worthing analyzes He Yingqin's rise to power alongside Chiang Kai-shek, his work in building the Nationalist military, and his fundamental role in carrying out policies designed to overcome the regime's greatest obstacles during this turbulent period of Chinese history.
