The Apollo of God

Robert R. Larsen

The Apollo of God Robert R. Larsen
The existence of God is a provable fact. In The Apollo of God, author R. Robert Larsen seeks to prove this existence by providing hard evidence found in the oracle-a history written in advance that intersects with human history past, present, and future and proves the existence of a supreme deity in the universe. In this thought-provoking discussion, Larsen corrects some long-standing notions held by historians. Not only does this work shed light into areas neglected or ignored by historians, it also provides an explanation of the twelve ways to test an oracle. In addition, The Apollo of God applies some new insights and corrections to conventional wisdom. Viewing the Bible as a history book, The Apollo of God provides an alternate history. It tells us that one individual did achieve the goal of eternal life and that he was exactly who he said he was.
