The following computer-generated description may contain errors and does not represent the quality of the book:
That what is called the history of the kings and early consuls of Rome is to a great extent fabulous, few scholars have, since the time of Beaufort, ventured to deny. It is certain that, more than three hundred and sixty years after the date ordinarily assigned for the foundation of the city, the public records were, with scarcely an exception, destroyed by the Gauls. It is certain that the oldest annals of the commonwealth were compiled more than a century and a half after the destruction of the records. It is certain, therefore, that the great Latin writers of a later period did not possess those materials without which a trustworthy account of the infancy of the republic could not possibly be framed. They own, indeed, that the chronicles to which they had access were filled with battles that were never fought, and consuls that were never inaugurated; and we have abundant proof that, in those chronicles, events of the greatest importance, such as the issue of the war with Porsena, and the issue of the war with Brennus, were grossly misinterpreted.
