The World of Dinosaurs features a unique look at fifteen dinosaurs and other creatures from North America during the Jurassic and Cretaceous eras. Written for all ages, it has the latest information on each of these "home grown" species as well as the latest theories on the origins and fate of the dinosaurs. The World of Dinosaurs with all new art by James Gurney, has a dinosaur "hot spot" map of the United States, and a behind-the-scenes look at the creation of the wildly successful U.S. Postal stamp series which inspired this book.
