Finding Your Way Without Map or Compass.

Navigation For Dummies (Navigation Emergency Book)

This book has outlined many of the techniques you can used when you are lost to always find your direction or 'lost-proof' yourself. You can use the cheesy techniques such as using magnetized needles floating on water, or using a watch as a sun dial-- but that isn't really necessary.

Regardless of your method of navigation; there are plenty of these techniques here in this book that you can use to find your way.

Some methods covered

• Know how to navigate roads

• The moss

• Good ol' needle and magnet trick

• Follow the rivers

• Use the stars

• Use the sun

• Use a watch

• Clues from nature & civilization

• Landmarks
