Modern Wonders (Frameworks) Shana Priwer, Cynthia Phillips
Modern Wonders, a title in the five-title series *Frameworks: Science, Technology, and the Built Environment*, illuminates the science, technology, art and architecture, and history of the world's greatest architectural and engineering achievements, including the Eiffel Tower, St. Louis Gateway Arch, World Trade Center, Mt. Rushmore, and the Millennium Wheel. Modern Wonders provides an interdisciplinary, visual approach that combines informative text, fascinating background information, and basic scientific principles with dozens of full-color photographs, illustrations, and other visuals (e.g. diagrams and equations). Appropriate for a broad audience of students, teachers, librarians, and general interest readers, *Modern Wonders* is an excellent supplemental resource for subjects covered throughout the curricula: science, technology, and society; art and architecture; economics; and world history and culture.
