A First Course in Fuzzy and Neural Control

Hung T. Nguyen, Nadipuram R. Prasad, Carol L. Walker, Ebert A. Walker

A First Course in Fuzzy and Neural Control Hung T. Nguyen, Nadipuram R. Prasad, Carol L. Walker, Ebert A. Walker
Although the use of fuzzy control methods has grown nearly to the level of classical control, the true understanding of fuzzy control lags seriously behind. Moreover, most engineers are well versed in either traditional control or in fuzzy control-rarely both. Each has applications for which it is better suited, but without a good understanding of both, engineers cannot make a sound determination of which technique to use for a given situation.

A First Course in Fuzzy and Neural Control is designed to build the foundation needed to make those decisions. It begins with an introduction to standard control theory, then makes a smooth transition to complex problems that require innovative fuzzy, neural, and fuzzy-neural techniques. For each method, the authors clearly answer the questions: What is this new control method? Why is it needed? How is it implemented? Real-world examples, exercises, and ideas for student projects reinforce the concepts presented.

Developed from lecture notes for a highly successful course titled The Fundamentals of Soft Computing, the text is written in the same reader-friendly style as the authors' popular A First Course in Fuzzy Logic text. A First Course in Fuzzy and Neural Control requires only a basic background in mathematics and engineering and does not overwhelm students with unnecessary material but serves to motivate them toward more advanced studies.

From reader reviews:

Richard Gary:

Do you have favorite book? When you have, what is your favorite's book? Book is very important thing for us to know everything in the world. Each guide has different aim or maybe goal; it means that book has different type. Some people sense enjoy to spend their a chance to read a book. They may be reading whatever they acquire because their hobby is definitely reading a book. Think about the person who don't like examining a book? Sometime, man feel need book after they found difficult problem or even exercise. Well, probably you will want this A First Course in Fuzzy and Neural Control.

Stacy Vincent:

In this 21st millennium, people become competitive in most way. By being competitive right now, people have do something to make them survives, being in the middle of the actual crowded place and notice simply by surrounding. One thing that sometimes many people have underestimated it for a while is reading. Yeah, by reading a e-book your ability to survive raise then having chance to stand up than other is high. In your case who want to start reading a book, we give you this kind of A First Course in Fuzzy and Neural Control book as basic and daily reading reserve. Why, because this book is usually more than just a book.

Michael Crew:

As people who live in the modest era should be change about what going on or details even knowledge to make all of them keep up with the era that is certainly always change and move forward. Some of you maybe may update themselves by looking at books. It is a good choice in your case but the problems coming to an individual is you don't know what type you should start with. This A First Course in Fuzzy and Neural Control is our recommendation so you keep up with the world. Why, because book serves what you want and need in this era.

Paul Herbert:

On this era which is the greater individual or who has ability in doing something more are more precious than other. Do you want to become certainly one of it? It is just simple solution to have that. What you must do is just spending your time very little but quite enough to have a look at some books. Among the books in the top list in your reading list is A First Course in Fuzzy and Neural Control. This book which is qualified as The Hungry Slopes can get you closer in becoming precious person. By looking upward and review this reserve you can get many advantages.
