**The Star Trek: The Original Series: The Eugenics Wars #1: The Rise and Fall of Khan Noonien Singh (Star Trek: Eugenics Wars)** Greg Cox
Captain James T. Kirk must probe deep into the secrets of the past to discover the true origins of the infamous Eugenics Wars...and of the man who became perhaps the most dangerous foe he has ever had to face. In 1974 an international consortium of scientists embarked on the Chrysalis Project, a top-secret experiment in human genetic engineering. Their goal is no less than the creation of a new, artifically improved breed of men and women: smarter, faster, stronger than ordinary human beings -- a super-race to take command of the entire planet. Gary Seven, an undercover operative for an advanced alien species who knows all too well the apocalyptic consequences of genetic manipulation, is alarmed by the project's objectives. With his trusted agents Roberta Lincoln and the mysterious Isis, he will risk life and limb to expose Chrysalis and neutralise the awesome threat that the Project poses to Earth's future generations. But he may already be too late. One generation of super-humans has already been conceived. As the years go by, Seven watches with growing concern as the children of Chrysalis -- in particular, one brilliant youth named Khan Noonien Singh -- grow to adulthood. Can Khan's dark destiny be averted? Or is Earth doomed to fight a global battle against his desire for conquest...
