**Chess: Conquer your Friends with 4 Daredevil Openings: Chess Openings for Casual Players and Post-Beginners (The Skill Artist's Guide to Chess)** Maxen Tarafa
**DEMOLISH your friends in Chess with your new secret weapon: the Chess Opening!**

Your first 5 moves are the most critical moves in the entire game. If you don’t have a move-by-move plan, you may be losing the Opening before you even begin. There are hundreds of Chess Openings out there and it could take years to learn them all.

But to conquer your friends…all you need is 4 Daredevil Openings.

Your dad taught you how to play Chess. But he didn’t teach you much. You know how to checkmate and move the pieces, but let's face it, your friends and family still beat you more than you'd like. You don’t just want to play, you want to win and possibly CONQUER ALL YOUR FRIENDS.

You sly fox! I know the feeling and I'm here to help.

My name is Maxen R. Tarafa and I'm a Skill Artist. In the start to the Conquer your Friends series, I showed you 8 easy, high-impact principles you can use to rapidly improve your Chess game. In this book, I show you the exact Openings I used to go from a 600 rated player to a 1300 player in less than three months.

But these aren’t just any Openings. These Openings are:

Dangerous —and Easy And Dangerously Easy

But I’m going to warn you right now...my method is rather controversial

You see, most "experts" bombard you with complex terminology and laborious Chess notation (QxB6?). For this book, you need none of that. I give you a cheat sheet of what you NEED to remember, and you’ll be off to the Chess boards and popping Pawns like daisies.

"Experts” don’t want me to teach these Openings because they’re risky and they break the Opening “rules.” But I’m teaching them anyway because...let's be honest, if you know ONE simple but effective opening and your opponent knows NONE, YOU control the game.

In this book you get…

-Four diabolical openings you can use to conquer your friends today

-The super easy defense I use to shut down every common opening

-How to use Chess tactics to “steal” pieces from your opponents…in 5 moves

-Connections to the internet's best apps, websites, and videos related to openings

-A technique to easily recall ANY opening you can imagine...without rote memorization

-How to strong-arm your opponent into your opening so YOU control the game

-Detailed step-by-step diagrams showing exactly which moves to make: You don’t need to read notation!

-How your opening influences your unique Chess strategy, style, and personality

-Beginner Pyschology: how to pinpoint and exploit the natural weaknesses in beginner thinking

-How to win the game in your first 4 moves (they’ll think you’re a genius!)

I taught a 9-year-old these openings and less than a week later he was beating 17-year-olds. Anyone, even you, can learn how to win the Opening by learning a few daredevil moves.

If you’re looking for quick and easy Chess openings to double your skills, but don’t want to slog through complex terminology and notation, this book is for you!

Don’t let your friend, brother, dad, or roommate beat you again!

**Arm yourself with this masterful secret weapon! Join the casual Chess revolution today!**
