Total Business Marketing Makeover: A step by step guide for small businesses and busy professionals: Market your business for just $11 a day!

Total Business Marketing Makeover: A step by step guide for small businesses and busy professionals: Market your business for just $11 a day!
Here is a method that is teaching small business owners and busy professionals how to put their marketing efforts on auto-pilot while earning passive income for just $11 a day.

Warning: Throw all of your other marketing books away. Fire your marketing firm and PR representative because this is the only system you'll ever need. Just know that many marketing firms are meter feeders who will nickel and dime you for every penny you have. After all, their job is not to help you make money, but to help you spend it. This allows them to fatten their pockets while you're left with zero dollars in your bank account. Trust me; I've been there.
I've been marketing in the inspirational and self-development niche for almost a decade, and I've heard and tried everything in the book including:

- Spending precious time and money on deadbeat websites that are nothing more than digital brochures.
- Ranking for targeted keywords in Google, only to get visitors who don't convert into buyers.
- Building large lists of freebie seekers and LookyLoos.
- Guest blogging for marketing mill websites that don't value my content and creativity.
- Creating videos and blog posts that have gotten pummeled by spammers and digital bots.
- Consistently writing great articles, only to get blown away by competitors with far inferior content.
- Eking out a pitiful living selling affiliate products and services.

None of these things work if you don't have a system in place. The truth of the matter is that passion, consistency, and hard work just aren't enough.

This is the reason why a great deal of mom and pop shops fail while huge franchises like McDonald's are able to reel

in the dough, year after year. This proves that success is all in the systems. Besides, you can be blind, deaf, dumb, and only know four good words of English and still succeed with a business that has an effective marketing system.

So I've come up with a viable marketing solution for ordinary people like you and me. This system allows the regular Joe Shmoe to get a piece of the $1.4 trillion dollar e-commerce pie. No, you don't have to buy leads, beg for sales, or chase down customers. You just need to plug things in and go. I can't promise you that you will get rich overnight; after all, I am not a marketer. However, with consistency, dedication and hard work, you can start to build passive streams of income that can turn into a thriving online business. In no time you will be able to:

- Get leads and close more sales by mastering the art and science of email marketing.
- Research and make more connections on social media platforms such as LinkedIn.
- Build a massive following with Google Plus.
- Create membership sites that will allow you to quickly generate hundreds and even thousands of dollars in passive income.
- Create an alliance of affiliates and partners who can help promote your product and services and expand your brand.
- Transform your website into an automated money making machine, so you can make money while you sleep.
- Outsource boring, tedious grunt work so you can relax and spend more quality time with family and friends.

Just imagine doing all of this for just $11 a day. Yes, you read it right. For $11 a day you can launch and maintain an entire marketing system. 11 bucks is nothing compared to the thousands you paid to go to school or to get expensive training that you can't even apply to real life. With my blueprint, you have nothing to lose. Just download the book right away and start marketing your business today.
