War, Peace, and Human Nature: The Convergence of Evolutionary and Cultural Views

War, Peace, and Human Nature: The Convergence of Evolutionary and Cultural Views
Have humans always waged war? Is warring an ancient evolutionary adaptation or a relatively recent behavior--and what does that tell us about human nature? In *War, Peace, and Human Nature*, editor Douglas P. Fry brings together leading experts in such fields as evolutionary biology, archaeology, anthropology, and primatology to answer fundamental questions about peace, conflict, and human nature in an evolutionary context. The chapters in this book demonstrate that humans clearly have the capacity to make war, but since war is absent in some cultures, it cannot be viewed as a human universal. And counter to frequent presumption the actual archaeological record reveals the recent emergence of war. It does not typify the ancestral type of human society, the nomadic forager band, and contrary to widespread assumptions, there is little support for the idea that war is ancient or an evolved adaptation. Views of human nature as inherently warlike stem not from the facts but from cultural views embedded in Western thinking.

Drawing upon evolutionary and ecological models; the archaeological record of the origins of war; nomadic forager societies past and present; the value and limitations of primate analogies; and the evolution of agonism, including restraint; the chapters in this interdisciplinary volume refute many popular generalizations and effectively bring scientific objectivity to the culturally and historically controversial subjects of war, peace, and human nature.

From reader reviews:

Ellen Weiss:

Have you spare time for any day? What do you do when you have a lot more or little spare time? Yes, you can choose the suitable activity with regard to spend your time. Any person spent their own spare time to take a walk, shopping, or went to typically the Mall. How about open as well as read a book allowed War, Peace, and Human Nature: The Convergence of Evolutionary and Cultural Views? Maybe it is being best activity for you. You realize beside you can spend your time along with your favorite's book, you can more intelligent than before. Do you agree with their opinion or you have different opinion?

Rhonda Kirby:

Typically the book War, Peace, and Human Nature: The Convergence of Evolutionary and Cultural Views has a lot details on it. So when you make sure to read this book you can get a lot of advantage. The book was compiled by the very famous author. Mcdougal makes some research before write this book. That book very easy to read you may get the point easily after perusing this book.

Janelle Coe:

Is it anyone who having spare time and then spend it whole day by simply watching television programs or just lying down on the bed? Do you need something totally new? This War, Peace, and Human Nature: The Convergence of Evolutionary and Cultural Views can be the answer, oh how comes? It's a book you know. You are consequently out of date, spending your extra time by reading in this fresh era is common not a geek activity. So what these textbooks have than the others?

Jennifer Lewis:

As a university student exactly feel bored to be able to reading. If their teacher expected them to go to the library as well as to make summary for some e-book, they are complained. Just tiny students that has reading's internal or real their leisure activity. They just do what the educator want, like asked to the library. They go to generally there but nothing reading critically. Any students feel that examining is not important, boring along with can't see colorful images on there. Yeah, it is to become complicated. Book is very important for you. As we know that on this time, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. Therefore , this War, Peace, and Human Nature: The Convergence of Evolutionary and Cultural Views can make you really feel more interested to read.
