Annette E. Neumann

The Heathen Woman: A Practical Approach to Our History and Way of Life Annette E. Neumann The Heathen Woman is a straight forward work that discusses common themes in Heathen lore and history that are still very relevant in the lives of modern women. From discussions on ancient goddess cults, heroines, spirituality to the practice, The Heathen Woman not only offers personal insight on Heathenism today but also offers up more on the women and goddesses that established the limits of greatness in the Heathen Faith for us today. This book is in honor of our ancient mothers who have been denied their rightful reverence for far too long. This book is not just meant to empower women. It's a moment in time to let the women in our ancient blood lines shine and we are all better for that.
