A Discourse on the Religion of the Indian Tribes of North America SAMUEL FARMAR JARVIS
From inside the book:
The Indians themselves are not communicative in relation to their religion ; and it requires a good deal of familiar, attentive, and, I may add, unsuspected observation, to obtain any knowledge respecting it. Hence, many who have been transiently resident among them, have very confidently pronounced, that they have no religion; an assertion, which subsequent and more accurate travellers have shown to be entirely unfounded.

Those, also, on whom we rely for information, have either been too little informed to know what to observe, or they have been influenced by peculiar modes of thinking, which have given a tinge to all they have said on the subject.

The various speculations, for example, on the question, whence America was peopled, led to many misrepresentations of the religious rites of its inhabitants.
